

– Amid school closures and concerns over COVID-19, Fontana Unified School District (FUSD) has implemented a meal service for students during school closures. This service is available to all students, regardless of their economic status. For more information, visit www.fusd.net/meals.

Nearly 84 percent of Fontana Unified students qualify for free or reduced-lunch prices. The community need – coupled with the food shortages in local markets – bolstered the District’s decision to continue the meal service through the entire closure period.

For more information, including meal distribution sites, visit www.fusd.net/meals.
